

### General Description

The DB-4027P trainer is fully operating common petrol engine and transmission for training skills in observing engine operation, tune-up and gear shift transmission. The trainer mounted on welded tubular steel frame with lockable castor wheel for mobility.

DB-4027P

db-tech, DB-4027P

### Specification

- Engine: 4-cylinder in-line, 4-stroke
- Fuel system: EFI
- Fuel : Petrol
- Displacement: 1000-1600cc
- Valves: OHV( Over Head Valve)
- Ignition system: CDI
- Battery: 12V, 50Ah(included)
- Cooling system: Liquid cooled with radiator
- 5 speed manual transmission
- Built in flywheel guard and radiator guard for safety
- 10 liter fuel tank with fuel pump
- Exhaust manifold and silencer
- Instrument panel consist of key ignition switch, ampere meter, oil pressure gauge, water temperature gauge and tachometer
- Supplied with dust cover & operation/service manual
- Tool box with necessary tools

PETROL ENGINE 4 CYLINDER WITH TRANSMISSION
