

DC VOLTAGE PARAMETER

GENERAL DESCRIPTION

The db-tech, DB-500MP is DC Voltage Parameter, this device can measure dc voltage, current and watt with high efficiency. LED display will show the measuring voltage, ampere and watts.

DB-500MP

Specification

Model	DB-500MP
Input Power	230 VAC
Measuring Volt	600 VDC
Measuring Current	10A Max
Measuring Watts	2500W Max
Load Socket	4mm Banana type
Display	3.5 digit
Display type	LED
Dimension	250x180x200
Weight	4.5KG

Accessories:

- Operation Manual
- Power Cord
- Load probe/Banana to Banana
